Good afternoon,

Please visit our SharePoint link for the Spring 2023 [Curriculum Update Packet](#). If you need to refer to these reports at a later date, please bookmark this webpage rather than downloading individual reports. This will ensure you have the most up-to-date information. Resources included in this packet are:

- **BOT Approved Credit Curriculum Memo** for changes implemented in Spring 2023 (0615)
- **Program Maps** — a quick guide to our academic communities and the programs they offer
- **Active Plan Report** — includes plans in teach-out
- **0615 Course Proposal Report** – includes curriculum changes submitted and approved by the C&I Committee
- **0615 Program Proposal Report** – updates made to degrees and certificates, including new or deleted programs

### How to Use This Information:

- *Please refer to the tabs at the bottom of each report.*
- Minor course changes appear in the report documents for your information, but are not included in the BOT Memo, as they do not require C&I Committee review or BOT consent.
- You will find helpful *course*-related information, such as prerequisite information and the reason for the action being taken, under the Course Information and Justification columns.
- You will find helpful *program*-related information under the Justification and the Teach-out Plan columns (for modified or closed programs.)
- Cascading Communication Model –  [suggested model for sharing information with your staff](#)

Please share this with your team and with any interested parties. If you have any questions, please contact any member of the Curriculum Services team.

Thank you,

**Andrijana Trajkovska**
