

2020-2021 Recent Alumni Survey Research Brief

Research Briefs

Research Briefs are short publications prepared by the Departments of Institutional Effectiveness (IE) and Institutional Research (IR) that are intended to provide relevant information which assists in the performance improvement process used by St. Petersburg College (SPC). Research Brief topics include, but are not limited to, student achievement, state accountability measures, institutional survey results, student enrollment, and faculty/adjunct compensation.

Introduction

SPC annually conducts the Recent Alumni Survey to measure alumni satisfaction with SPC’s education programs. The Recent Alumni Survey specifically collected information related to career preparation, preparation for continuing education, and the current employment information and educational status of former students. The data collected is used for the state-required annual Placement and Follow-up Report and as supplemental information to meet continuous improvement initiatives in workforce programs.

Graduates are sent one survey to complete, even in cases where they may have earned multiple degrees within the same year. In these cases, the reported number of surveys sent and responses received are counted once per degree or certificate awarded to the student.

Responses

The Recent Alumni Survey was administered to 6,935 graduates from Associate in Arts (AA), Associate in Science (AS), Certificate programs (CT, ATD, ATC, PSAV, and PSVC), Bachelor of Science (BS), and Bachelor of Applied Science (BAS) degrees. The 2020-21 graduates were first contacted by e-mail and asked to complete an online survey. Those who did not respond to the initial e-mail were sent three additional e-mail reminders at two-week intervals. Due to the COVID-19 pandemic, paper surveys were not completed for the 2020-21 Recent Alumni survey, except for those completed by Radiography alumni. Nine-hundred and sixty surveys were returned for an overall response rate of 13.84%. The overall response rate showed an increase of 4.81% compared to the previous year.

Survey Information

This was the seventeenth year that graduates were initially contacted electronically. The survey of 2020-21 graduates received 98.23% of the 960 responses online. Due to the COVID-19 pandemic, paper surveys were not administered in 2020-21 except to Radiography alumni.

Goals and Current Activity

Almost half of the respondents (44.94%) from all degree and certificate programs reported that continuing their education was their main goal in completing a degree or certificate. "Change career fields" was the second most frequently selected goal among respondents (20.02%). A closer look by program at responses to "What was your main goal in completing a degree or certificate at SPC?" indicated that over one-third of the Bachelor's degree-seeking students (38.94%) and Upper-Division Certificate students (35.71%), and almost three-quarters of the AA students (71.05%) selected "Continue my education," while about one-third of the AS students (33.96%) and Lower-Division Certificate students (33.88%) selected "Change career fields."

Educational Activity

In response to the question, "Are you continuing your education?" over half (59.91%) of the 913 respondents answered that they were. AA students (87.58%) reported continuing their education most often, with over half of AS (52.50%) and Lower Division Certificate (53.18%) respondents reporting continuing their education. BS/BAS (28.57%) and Upper Division Certificate (35.71%) respondents were less likely to report continuing their education.

General Education Outcomes

The 2020-21 Recent Alumni Survey administration process included survey questions to assess the graduates' level of satisfaction in areas of general education outcomes. Graduates were asked to rate their preparation of general education skill areas on a 5-point Likert scale with labels from "1-Poor" to "5-Excellent." Based on the results, graduates believe SPC prepared them in the majority of their general education skills areas. Of the 25 outcome areas, one received a mean score of 4.55, twenty received mean scores between 4.01 and 4.45, and four received mean scores between 3.78 and 3.83.

Conclusion

Results from the 2020-21 Recent Alumni Survey indicated that about three-quarters (78.81%) of the graduates who responded are employed. Nearly two-thirds (65.78%) of those are employed in a field related to their studies. The AS, Upper Division Certificate, and BS/BAS programs reported the highest rates of related employment (86.96%, 85.71%, and 73.60% respectively).

Wage earnings varied by degree or certificate awarded. Overall, 36.55% of respondents reported wages of \$52,000 or more (up from 33.96% in 2019-20), and 25.03% reported wages between \$31,000 and \$41,999 (up from 21.46% in 2019-20). The highest wages were reported most often among AS and BS/BAS respondents, at 54.14% (up from 50.00%) and 52.81% (up from 44.86%) respectively.

Additionally, AA degree respondents reported the highest rate of continued education (87.58%), and 66.79% of those were enrolled full-time. Overall, over half (59.91%) of SPC graduates are pursuing further education.

SPC graduates also reported high levels of satisfaction in the areas of general education outcomes associated with the general education skills. Most recent alumni (97.77%) reported SPC had prepared them adequately for continued education, and the majority of respondents (92.51%) would recommend their program to others.
