# EDUCATIONAL PLANT FIVE YEAR SURVEY REPORT

**College:**

23-ST. PETERSBURG COLLEGE

**Survey:**

Survey : 2 Version : 1

**Status:**

Active Approved

---

EPICENTER - The survey recommends more non-vocational student stations than allowed; survey recommendations for non-vocational student stations should be revised before submitting the survey

CLEARWATER CAMPUS - The survey recommends more general classroom student stations than allowed; survey recommendations for general classroom student stations should be revised before submitting the survey.

ST PETERSBURG/GIBBS - The survey recommends more general classroom student stations than allowed; survey recommendations for general classroom student stations should be revised before submitting the survey.

ST PETERSBURG/GIBBS - The survey recommends more non-vocational student stations than allowed; survey recommendations for non-vocational student stations should be revised before submitting the survey

ST PETERSBURG/GIBBS; Auxiliary Space: Support Services - The square footage recommended exceeds the square footage allowed by SREF.

ST PETERSBURG/GIBBS; Auxiliary Space: Circulation - The square footage recommended exceeds the square footage allowed by SREF.

TARPON SPRINGS CAMPU - The survey recommends more general classroom student stations than allowed; survey recommendations for general classroom student stations should be revised before submitting the survey.

HEALTH EDUCATION CEN - The survey recommends more vocational student stations than allowed; survey recommendations for vocational student stations should be revised before submitting the survey.

HEALTH EDUCATION CEN; Auxiliary Space: Audiovisual - The square footage recommended exceeds the square footage allowed by SREF.

HEALTH EDUCATION CEN; Auxiliary Space: Support Services - The square footage recommended exceeds the square footage allowed by SREF.

ALLSTATE CENTER - The survey recommends more vocational student stations than allowed; survey recommendations for vocational student stations should be revised before submitting the survey.

DOWNTOWN CENTER - The survey recommends more general classroom student stations than allowed; survey recommendations for general classroom student stations should be revised before submitting the survey.

DOWNTOWN CENTER; Auxiliary Space: Audiovisual - The square footage recommended exceeds the square footage allowed by SREF.

MIDTOWN CENTER - The survey recommends more general classroom student stations than allowed; survey recommendations for general classroom student stations should be revised before submitting the survey.

There are PPL projects from the previous survey that are not under contract or marked as complete. Resolve any outstanding PPL projects by marking them as complete or remove them from funding. PPL number: 1

**Master Plan update on file:** Yes

**RECOMMENDATIONS FOR EDUCATIONAL PLANTS****ST. PETERSBURG COLLEGE****Survey : 2 Version : 1****Date : 6/30/2017 10:12:31 AM**

The educational plant survey is a systematic study of present educational and ancillary plants and the determination of future needs. The survey is not directly concerned with the instructional program but the relationship of educational plants to the instructional program is such that judgments regarding the instructional program are necessarily a part of an educational plant survey.

The construction, remodeling, and renovation of educational facilities is a major undertaking. The educational plant survey aids in formulating plans for housing the educational activities of students and staff of the community college for the next several years and the survey considers the local comprehensive plan in its forecast strategies. This plan represents a careful study of all available data regarding the status of educational and ancillary facilities in relation to capital outlay full-time equivalency (COFTE) student membership and the projected changes in COFTE student membership. The intent of this educational plant survey is to ensure the thoughtful, orderly development of a program for providing educational and ancillary plants to house the educational and academic support activities of the college.

The recommendations in this educational plant survey furnish the foundation for a five-year plan for educational plants adopted by the Board of Trustees in accordance with §1013.31, Florida Statutes. Similarly, the recommendations serve as the basis for the proposed building program with projects listed in the order of priority submitted pursuant to State Requirements for Educational Facilities §2.1(5).

Educational plant survey cost estimates are determined based on cost factors that are 31 months (January, the midway point of the five-year survey period) from the official beginning of the survey period, which is July 1 of the first full year of the survey. The cost per square foot for new construction, remodeling, and renovation is based on actual statewide average construction cost data with a cost index increase applied to use the mid-point of the survey costs for planning purposes. The cost estimate process applies uniformly to all surveys in all colleges so that consistent planning can be made on a statewide basis.

Cost estimates for educational plant survey recommendations provide a general idea of anticipated costs and should not be interpreted as accurate estimates for particular projects. When educational plant survey recommendations become specific projects, professionals who can estimate the actual project costs based on current construction information must prepare the estimates.

The following table is a summary of square foot rates and cost estimates for the community college educational plant survey recommendations:

<b>Recommendation Category</b>	<b>Cost per Square Foot</b>	<b>Estimated Cost</b>
New Construction	270.00	59,230,440.00
Remodeling	135.26	8,756,640.00
Renovation	90.00	92,610.00
Site Recommendations		25,745,000.00
Estimated Total Survey Recommendation Cost		93,824,690.00

In addition, the educational plant survey provides six standard recommendations for college-wide application, as needed. The standard survey recommendations address general categories of physical plant needs that are likely to occur over time. No cost estimates are included for the standard survey recommendations.
