"At the academy, students can complete an Associate in Science in Biomedical Engineering Technology – completely free – while earning their high school diploma. The A.S. degree trains students to meet the growing need for biomedical equipment repairers, who maintain the sophisticated medical devices that patients' lives depend on."

St. Petersburg College is an outstanding place to get an education. But don't just take our word for it. Nicole Stott started her academic journey at SPC and is a proud Titan alum. She went on to become an engineer and NASA astronaut, and completed two missions aboard the International Space Station!

It can feel overwhelming to shop for professional wear. That's why we're inviting SPC students to join JCPenney's Suit-Up Event for shopping assistance AND an additional 30% discount on clothes.

The event will take place from 3–5 p.m. on April 23 at the Countryside Mall and again on April 30 at Tyrone Square. You can also shop online at <https://linkd.in/e3gquUeA>. Don't forget to bring your student ID. Titans! 🦊
