MAKE THE TRANSFER TO ST. PETERSBURG COLLEGE

If you attended another college or university and want to attend SPC, you are considered a transfer student. To be admitted to SPC, you will need to submit official transcripts from **every regionally accredited college that you've attended**. It's very important that SPC receives all of your official transcripts within your first term of admission or re-admission as it may impact your ability to enroll for subsequent terms. Students enrolled in a degree-seeking program will have a one-term grace period to submit all official transcripts. Giving your complete educational history to SPC allows you to:

- Receive credit for your previous work
- Minimize the potential for repeating courses at SPC that you already successfully completed elsewhere
- Simplify the registration process
- Save you time and money

QUESTIONS? ASK PETE

Your college transcripts will be evaluated and posted to your academic record after your application fee is paid and your high school transcript received or this requirement is waived. The Office of Admissions & Records prioritizes transcripts in the order they are received and every effort is made to post applicable transfer credits as quickly as possible.

If you are applying to a limited access program, you may be required to submit official transcripts from all previously attended colleges regardless of accreditation type. Please speak with an Academic Advisor for more information.

You can also earn academic credit through your experience in the military, industry certifications, exam scores, high school programs and the Experiential Learning Program.

[Transfer Evaluation Tool](#)

HOW WILL MY COURSE CREDITS TRANSFER TO SPC?

Use the [Transfer Evaluation Tool](#) to get an idea of how the credits you earned at another college or university may transfer to SPC. We would be happy to answer specific questions you have about this tool. You may contact us at transcript.evaluator@spcollege.edu.

The [Transfer Evaluation Tool](#) compares St. Petersburg College course credits with that of other colleges and universities. This tool is reviewed and updated continually as we receive transcripts from various colleges and universities. As you utilize this tool, please note the following:

- If you don't find a specific institution listed, this does not necessarily mean that institution's credits are not accepted by SPC. However, if the institution is not regionally accredited or participating in the [Statewide Common Course Numbering System](#), the courses will not automatically transfer.
- If you don't find a specific course listed, this does not necessarily mean that the course will not be accepted by SPC. This could be for a variety of issues, for example it could be that this course has not yet been evaluated by our transcript evaluators.
- Please note that while a course equivalency may appear, this does **not guarantee** that the course will transfer to St. Petersburg College. The Admissions and Records staff continually reviews equivalencies, making them subject to change.
